

'NORA 250' OUTDOOR CUBE SAUNA

Embrace the Extraordinary

Made in Europe
SAUNA^o
by THERMORY.

Enhance your outdoor space with the 'Nora 250' Cube Sauna—a perfect blend of timeless craftsmanship and modern luxury. Built with thermally modified spruce, it offers outstanding durability and natural resistance to rot.

With a spacious porch and built-in benches, the 'Nora 250' provides a serene retreat for unwinding before or after your heat therapy session.

Its sleek, rounded-square design adds a touch of elegance to any outdoor setting, while optional features like a half-panoramic window and ample interior space elevate this premium sauna to the next level.

INCLUSIONS

LED WALL LIGHTS

Beautiful lighting to enhance your sauna experience.

HALF PANORAMIC WINDOW

Enjoy dramatic views of your surroundings, whether it's the bush, mountains, or just your backyard.

THERMALLY MODIFIED WOOD

Thermal modification is a chemical-free process that enhances real wood – providing unmatched strength, stability, and better insulation.

READY FOR ALL WEATHER

Our 'Nora' Sauna comes come with superior bitumen hexagonal roof shingles for the Australian climate.

MATERIALS

Hexagonal
Roof Shingles

Thermo-Spruce

Thermo Aspen
Sauna Benches

DIMENSIONS

W2100 x D2470mm x H2220mm
Volume: 11.5 m³

CAPACITY

6 People

STABILITY

Dimensionally stable in changing weather conditions

DURABILITY

Highest available durability class for real wood

ECO-FRIENDLY

Chemical-free modification

LIGHTWEIGHT

Easy handling and reduced thermal conductivity

LOW MAINTENANCE

Oil it or not, the choice is yours

The heat enhances the wood's structure throughout.

Steam allows for full control over the modification process.

THIS PROCESS IS COMPLETELY NATURAL

Thermally modified wood is natural – its properties are enhanced using just heat and steam. This chemical-free process results in an eco-friendly and aesthetically pleasing material that's significantly more durable and stable than conventional timber.

KEY FEATURES

LUXURIOUS 6-PERSON CAPACITY

With over 210cm of headroom and deep benches, the spacious Cube Sauna lets you sit back or fully recline in comfort.

SIMPLE SAUNA INSTALLATION

With pre-cut staves and cradles, you can build your Outdoor Sauna in a day, or let our team install it for you!

PREMIUM EUROPEAN CRAFTSMANSHIP

The Sauna has been designed by expert European craftspeople, backed by years of experience.

MODERN & SOPHISTICATED

The Cube Sauna's square design and natural timber finish enhance any outdoor space.

EXCEPTIONAL WALL THICKNESS

40mm staves provide unmatched wall thickness for Australian saunas, ensuring superior heat retention, durability, and noise reduction.

SITTING PORCH

A perfect spot to rest between sessions and to leave your shoes and robes while you rejuvenate inside.

SDS Australia is proud to source timber from Thermory, with their commitment to environmental sustainability. They aim to find balanced solutions for smart wood production that reduce the environmental impact.

Reducing the carbon footprint of a building is a major challenge for the entire construction industry. Manufacturers of building materials can play a major role by investing in product development, energy efficiency and renewable energy to ultimately reduce the environmental impact of their products. It is possible to produce sustainable materials, products and solutions with a smaller carbon footprint.

Thermally treated wood is a good alternative to other building materials, as carbon emissions from wood are reduced during thermal treatment and the life of the wood is extended.

Responsible wood sourcing

Thermory carefully monitors where the wood comes from.

They only source the best quality wood from sustainably managed forests around the world. This helps reduce the negative impact of deforestation.
