DESIGNED & DEVELOPED BY SDS AUSTRALIA

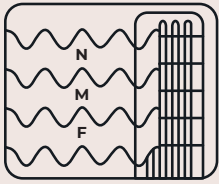

A New Benchmark in Outdoor Infrared

Designed and developed by SDS Australia, SAGA HALO™ is a high-performance outdoor infrared sauna engineered to deliver powerful heat without compromising comfort or architectural refinement. Its combination of full spectrum and carbon infrared heaters has been performance-tested from 10°C to 70°C in under 24 minutes – bringing exceptional speed and high-temperature capability to the infrared experience.

A weather-resistant ACP exterior protects a premium Western Red Cedar interior, while SkyLens™ — the patent-pending Smart Glass double-glazed Low-E skylight — introduces natural light, open-sky views and on-demand privacy without thermal compromise.

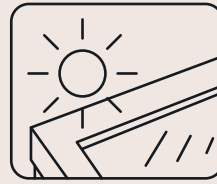

Available in 2-person and 5-person models, SAGA HALO™ is SAA tested for household and public sauna environments, including hotels and similar settings.

KEY FEATURES

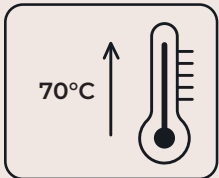

FULL-SPECTRUM HEAT

Near, mid, and far infrared combine for deeper, more complete heat delivery.

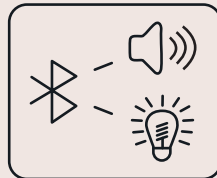

SKYLENS™ SMART GLASS

Natural light, open-sky views and instant privacy without thermal compromise.

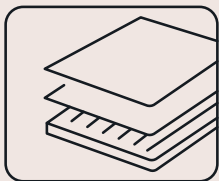

FAST HEAT-UP PERFORMANCE

Performance-tested from 10°C to 70°C in under 24 minutes.

SMART CONNECTIVITY

Wi-Fi, mobile app control, Bluetooth audio, and intuitive touchscreen interface.

ACP ENGINEERED STRUCTURE

Aluminium Composite Panel construction improves heat retention, stability, and durability.

EASY INSTALLATION

Designed for easy setup and low maintenance.

Why SAGA HALO™ Stands Apart

- ✓ Performance-tested from 10°C to 70°C in under 24 minutes
- ✓ Patent-pending SkyLens™ Smart Glass double-glazed Low-E skylight
- ✓ Up to 14 Full Spectrum and Carbon infrared heaters
- ✓ SAA tested for household and public sauna environments
- ✓ Purpose-built outdoor ACP construction with IPX4 rating
- ✓ Premium Western Red Cedar interior

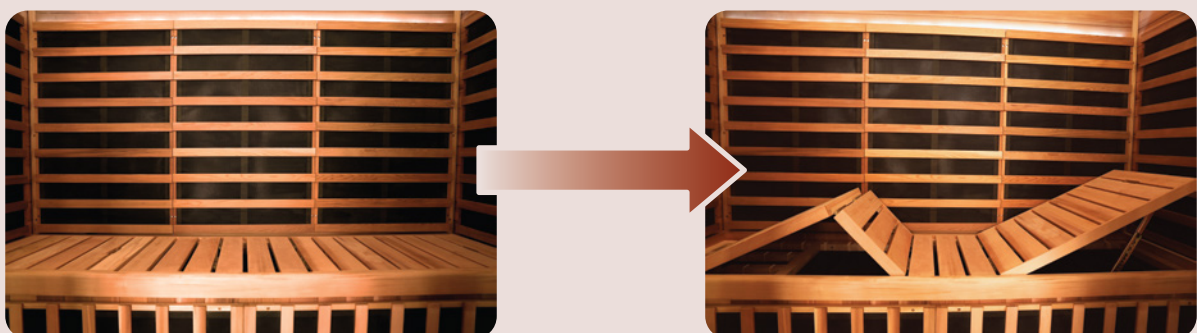

Designed and developed by SDS Australia for Australian conditions.
RCM marked, IPX4 rated and specified for installation in accordance with AS/NZS 60335.2.53.

Integrated Ergonomic Sauna Recliner

Elevate your recovery with our built-in, adjustable contoured lounger. Moving beyond traditional flat seating, this innovative bench transforms into a premium chaise lounge, offering targeted support for your back and knees. This ergonomic, zero-gravity posture relieves joint pressure and allows you to sink into a state of profound, full-body relaxation.

This feature is exclusively available on the SAGA HALO™ 5 model.

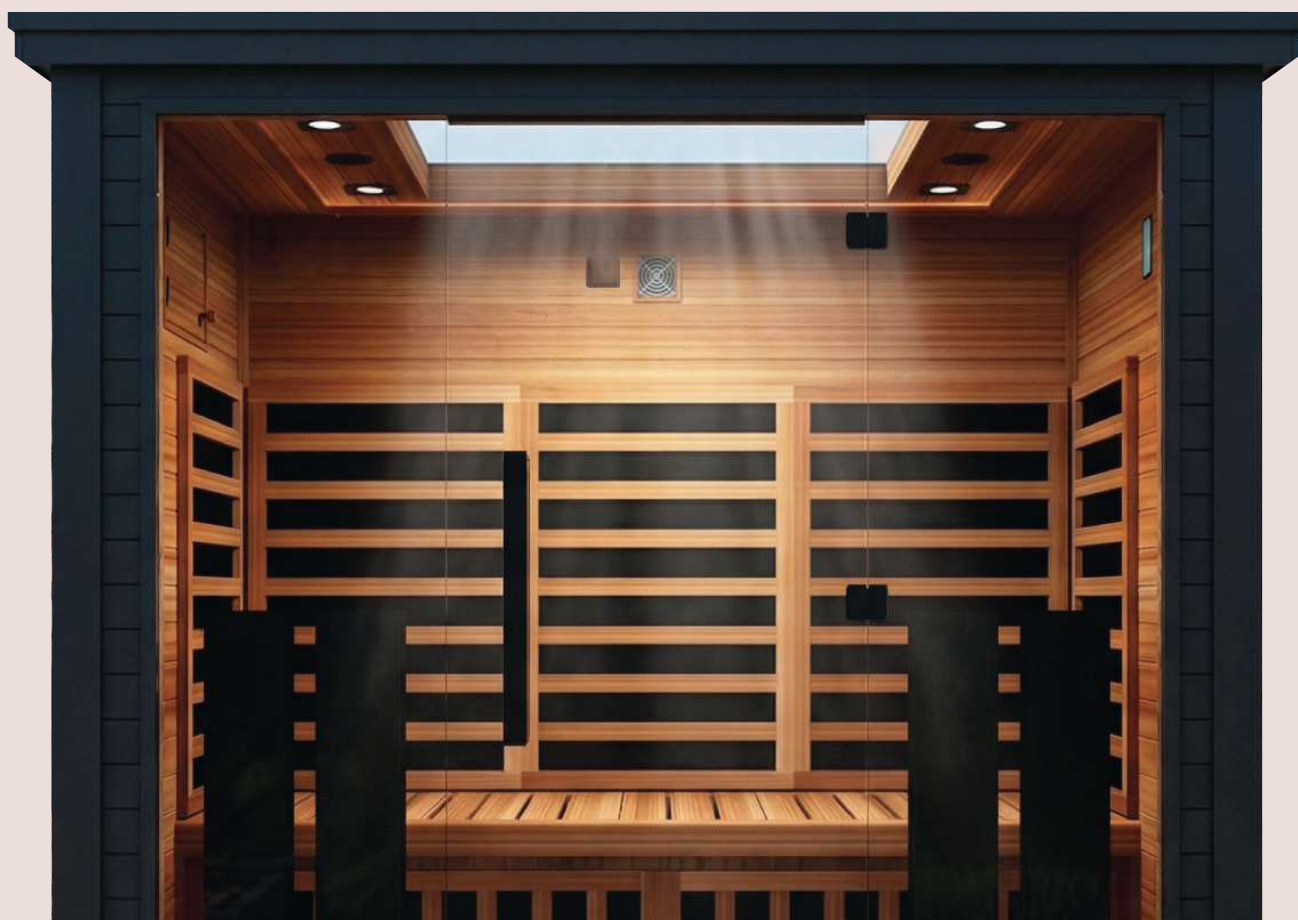

SkyLens™ Smart Glass Skylight

SkyLens™ is a patent-pending Smart Glass double-glazed Low-E skylight that brings natural light and an open-sky feel into the cabin without thermal compromise. Its thermally efficient construction helps retain heat, reduce condensation and shorten pre-heating time.

Using the supplied remote, switch SkyLens™ from clear to opaque at the flick of a switch for increased overhead privacy and reduced glare.

From clear skies to complete privacy — experience SkyLens™ at the touch of a button.

SMART App

Wi-Fi App Connectivity

Take complete control of your wellness routine from anywhere. The SAGA HALO™ mobile app allows you to adjust temperature, set session times, manage timers, customise chromotherapy lighting, and control audio settings directly from your smartphone. Seamless connectivity ensures every sauna session is ready when you are.

Personalised Ambient Chromotherapy

Set the perfect tone for your physical and mental recovery. Our integrated chromotherapy system is designed to create different moods and atmosphere preferences during your sauna session, allowing you to curate a deeply personalised, relaxing environment every time you step inside.

Red

Often associated with warmth, energy, and stimulation. Many users find red lighting creates an invigorating and uplifting atmosphere.

Purple

Often associated with mindfulness, creativity, and reflection. Purple lighting may help create a peaceful and meditative atmosphere.

Blue

Commonly associated with calmness and relaxation. Blue lighting may help create a soothing environment for rest and unwinding.

Green

Commonly connected with balance, harmony, and relaxation. Green lighting may contribute to a calming environment.

Yellow

Often linked with positivity, brightness, and mental alertness. Yellow lighting can create a cheerful and energising ambience.

Magenta

A blend of warm and cool tones that can create a balanced and comforting atmosphere.

White

Provides a clean, neutral lighting effect that many users find refreshing and balanced.

Wellness Benefits

- Deep relaxation and a calmer sense of wellbeing
- Relief from everyday muscle tension and stiffness
- Support for post-exercise recovery
- Comfortable full-body warmth and healthy sweating
- A calming way to wind down before rest

Low EMF Levels

Designed for low EMF performance, SAGA HALO™ delivers infrared warmth with everyday comfort and peace of mind.

Integrated Air Treatment System

An integrated Ion/Ozone Generator enhances the sauna environment by supporting air purification and odour reduction.

Warning: Ozone purification must only be operated when the sauna is unoccupied.

Considered Down to Every Detail

Every element of SAGA HALO™ has been thoughtfully designed to make each session more comfortable and convenient – from the insulated mobile-device charging compartment and external UV-C towel-care rail to moisture-resistant connection points for optional red light therapy devices.
